[DE - "Demonstration Phonecards"](#)

Such cards were used by the L&G engineers in order to perform and demonstrate the system in the factory or on site, at the customers' headquarters and also for the final performance acceptance tests. L&G also demonstrated the system to a larger public at meetings, fairs, congresses or exhibitions where Democards were given away to the attending visitors (see "Public Cards / Restricted Areas").

Democard for introduction of Full-Face-Printing cards
