The purpose of this section is to make you understand how the optical-cards were produced in the **Landis & Gyr** factory of Zug in Switzerland... Pictures, movies, scans and data are shown under agreement of both **Landis & Gyr** and **IPM** Companies.

ONLINE SECTIONS with ARTICLES & PHOTOS (links available at the left panel / Content Menu)

"Cards' Production in Zug" : Photos of devices used for the production (caution, large PDF)

"Optical Readers (BSK)" : Pictures of BSK32 readers produced by Sodeco

"Optical Structures" : Very usefull to know which optical-structure for which country

"Photos inside Zug" : Photos inside the factory of Zug

"SK12" : Cards and pictures
